About a training...

An Anti-Abuse WG quest

Gerardo Viviers | 24 November 2021 | RIPE 83

Problem Statement

- Approached by Anti-Abuse WG
- Can we help with some training?

ABUSE-C is first step

- With the abuse-c policy, finding the correct contact is easier
- Everybody should have one by now
- Registry Services can help if you don't have it

But how to handle the complaints?

- So you got an abuse complaint...
- What do you do now?
- Does everybody do the same thing?

How can we help?

- Providing some training to get started
- And pointing to useful resources to continue
- Creating a dialog in the community

Our next actions...

- We are busy with the **analysis**
- What is **relevant** for LIRs and what is not?
- Can we get your input?

First a webinar

- With your input, we can develop quickly a webinar
- Any other formats you would like?
- Tell us now! We like hearing from you :)

Thank you for listening

- We're off to a great start
- And we hope to keep hearing from you!
